DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3, 7, 8, 10-14, 16, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by DeCamp et al (US 5,792,099).

DeCamp discloses a syringe device having a reservoir 12, a cannula 24,26 having an orifice 30, and a pressurizer 22 to move fluid from the reservoir through the orifice to an intra-ocular structure within the eye.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 9, and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over DeCamp et al.

DeCamp discloses the invention substantially as claimed. However, DeCamp fails to disclose the fluid to be delivered as a dye or stain or indigo carmine. It would have been obvious to one having ordinary skill in the art at the time the invention was

made to use a dye or stain or indigo carmine, since DeCamp's syringe device is capable of delivering a fluid into the eye.

Allowable Subject Matter

5. Claims 4-6, 18-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Amar, Bab, Stoller, DeVries et al, Chevalier, Wehrli, Brierley, Ginsburg, Thornton et al, Koch, Weiss, Wolf et al, Dishler, Feaster, Bubroff, Straus, Grandon, and Yaacobi et al.
